

## Riviera® 2" Blind

Model #RIV2

**Top quality 2" horizontal aluminum window covering for commercial applications.**

### KEY FEATURES:

- DustGuard
- Headrail: 2 $\frac{5}{16}$ " high x 2 $\frac{1}{4}$ " wide
- Nominal .009" slat thickness
- 44mm ladder spacing
- Optional 1 $\frac{1}{2}$ " wide vinyl or twill ladder tapes
- Optional heavy duty C90 cord
- Limited lifetime warranty
- 90% recycled slat material

### PRODUCT OVERVIEW

The Riviera 2" Blind represents Levolor's top quality traditional favorite, backed by a limited lifetime warranty. Committed to both durability and aesthetics, the Riviera 2" Blind combines a clean modern look of the nearly-invisible polyester braided ladders with the familiar lines of larger slats. This high quality blind is especially appropriate when designing to achieve a large, soft window treatment look.

The DustGuard feature is a permanent paint process that disrupts the natural static attraction of dust particles to the slat. By removing the primary reason blinds attract dust a 50–70 percent reduction in accumulation can be achieved. Less dust means less maintenance and a cleaner, more professional appearance.

The durable and sturdy headrail is made of thick roll-formed corrosion-resistant Tomized® steel. The strength of the overall headrail profile provides smooth operation, even under heavy loads associated with large window applications. The Tomized steel hardware is machine-clinched, ensuring accurate alignment of moving parts and long, maintenance-free operation.

The nominal .009" thick slats are made of 5000 series magnesium aluminum alloy which includes 90% or higher recycled aluminum materials and provides superior strength and resiliency, guaranteeing a quality look for the life of the blind. As the industry leader, the Riviera 2" Blind's 44mm ladder spacing ensures tight closure and superior light control.

This blind is offered in a large selection of popular colors with coordinated components. A variety of options are available, including plastic or fabric tapes to complete the traditional 2" horizontal blind look.

## PRODUCT SPECIFICATIONS

For more detailed specifications please reference Riviera 2" Blind product Guide Specifications.

### Part II – Products

#### A. Riviera 2" Blind manufactured by Levolor

#### B. Limited Lifetime Warranty

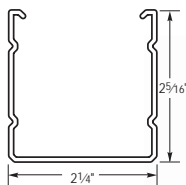

#### C. Materials:

- Headrail** shall be of .025" thick Tomized steel, "U" shaped, 2 $\frac{5}{16}$ " high x 2 $\frac{1}{4}$ " wide. All hardware shall be enclosed in the metal headrail.
- Tilt Wand** shall be transparent with a hexagonal cross section of  $\frac{5}{16}$ " across flats.
- Cord Lock** shall be .042" thick Tomized steel and shall be crashproof.
- Drum and Cradle** shall be provided for each ladder.
  - a. Drums shall be of .031" thick Tomized steel.
  - b. Cradles shall be of .042" thick Tomized steel.
- Installation Brackets** shall be of .050" thick Tomized steel with a rivet-hinged safety locking front cover to permit removal of headrail without lateral movement.
- Ladders** (slat supports): Distance between slats shall not exceed 44mm ladder spacing.
- Slats** shall be of 5000 series magnesium aluminum alloy which includes 90% or higher recycled aluminum materials. Slats shall be nominally 2" wide and the thickness of the slats shall be nominally .009."

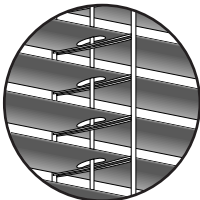

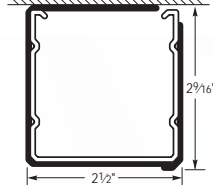

Coating includes DustGuard, a patented paint process which disrupts the natural static attraction of airborne dust particles, reducing dust build-up on the slat from 50-70 percent.

- Bottomrail** shall be of .025" thick Tomized steel.
- Options** shall include:
  - a. Cord Tilter
  - b. Cutouts
  - c. C90 Heavy-Duty Cord
  - d. Extension Brackets
  - e. Fabric Tapes: Woven Cotton Twill Tape
  - f. Hold-Down Brackets
  - g. MultiColor Striping
  - h. Multiple Blinds on One Headrail
  - i. Plastic Tapes
  - j. Ring Pull
  - k. School Blind Includes: Heavy-Duty Cord, Cordlock, and Plastic Tapes
  - l. Telescopic or Non-telescopic Pole
  - m. Universal Ring Tilter
