Nysan Showcases GreenScreen Platinum, an Optimized Version of GreenScreen®, Offering Added Benefits for Superior Interior Comfort

Calgary, Alberta (June 3, 2008) -- The Nysan Solar Control division of Hunter Douglas Contract highlights **GreenScreen Platinum**, an addition to the GreenScreen line of fabrics. GreenScreen is the first line of PVC-free solar shading fabrics designed exclusively for internal and external contract roller shades and Solar Control systems. Now with a metalized backing, GreenScreen Platinum is the optimized version of GreenScreen.

“Because GreenScreen Platinum is metalized on one side, it reduces solar heat gain, reduces glare and increases outward visibility,” said Frits Nijs, President of Nysan. GreenScreen Platinum is distributed through Hunter Douglas Contract’s Nysan Solar Control division, a global innovator in solar control solutions.

GreenScreen Platinum fabric is made of pre-stretched polyester that imparts a beautifully woven, soft texture and allows it to maintain dimensional stability over large areas. The metalized version is available in four colorways: Charcoal, Bronze, Pewter & Pearl. GreenScreen Platinum is another example of Nysan’s continuing commitment to deliver technically and aesthetically sophisticated green solutions for architects and designers.

Please visit <http://www.nysan.com> or call 800-727-8953 for information on innovative products featuring GreenScreen fabrics and to receive updates on other Hunter Douglas Contract installations and projects.

Nysan Solar Control is the leading provider of engineered solar shading solutions to the architecture and design community worldwide. Nysan offers customizable innovative systems with high-performance and environmentally friendly fabrics. The company is headquartered in Calgary, Alberta, Canada, and is part of the Hunter Douglas Group.

Hunter Douglas Contract For more than 80 years, the architecture and design community has specified contract products from Hunter Douglas, the world leader in window coverings and a major manufacturer of architectural products. A tradition of bringing breakthrough products to market makes Hunter Douglas and its divisions the choice for an array of contract solutions.
