

## MARKER, CHALK, AND TACKBOARDS 110 SERIES

110 SERIES

### *P<sup>3</sup>ceramicsteel* SURFACE FEATURES

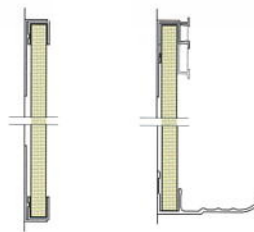

Quality workmanship has always been a PolyVision standard. PolyVision offers an extensive selection of marker, chalk, and tack boards using various materials and finishes.

The 110 Series is a commonly specified trim type because of its concealed hanging system. The 3/4" narrow C-4 trim line is extruded aluminum with a clear anodized finish (color powder-coating available as an option). Aluminum framed boards come standard with wrapped and mitered safety corners. The 2-3/4" CRC-2B aluminum blade type pen/chalk tray comes with 3/4" radius safety corners. Tray is factory installed. 1" display rail with cork insert is standard.

PolyVision developed *P<sup>3</sup>ceramicsteel*<sup>™</sup> surface for their markerboards and chalkboards. Dry erase markers and chalk glide easily across the surface with minimal friction, minimal wear, and maximum coverage. PolyVision is the only company that warrants its *P<sup>3</sup>ceramicsteel* surface forever, repairing or replacing the surface covered, for as long as it is in use.

Standard sizes are 4' x 4'; 4' x 6'; 4' x 8'; 4' x 10'; 4' x 12'. Custom sizes are available.

- SMOOTHER WRITING
- INCREASED COLOR CONTRAST
- REDUCED SURFACE LIGHT DISTORTION
- ENHANCED VISIBILITY
- OPTIMUM EYE COMFORT
- IMPROVED ERASABILITY
- MAGNETIC
- RESISTANCE TO CHEMICALS, SCRATCHES, BACTERIA, FIRE, AND GRAFFITI
