PANEL GLIDE SYSTEMS

The Home Collection

Sun screening panels from the West Palm collection

Silky white, translucent panels from the Monterey collection

Inspired by the East – the unique Silent Gliss Panel Glide System performs equally well as a window treatment or as a room dividing system. In contemporary or traditional home interiors, our panel system offers strikingly beautiful simplicity and crisp clean lines.

This distinctive method of decorating your windows genuinely brings a completely new dimension to window treatments and interior design.

The Home Collection by Silent Gliss offers a contemporary and delightful range of carefully selected fabrics for any room in your home. Inspired by a palette of neutral colors and textures we hope this collection will meet your needs, regardless of your decor style. From natural, earthy looks to bright white translucent selections, the Home Collection by Silent Gliss was created to fulfill your interior decoration dreams.

The Home Collection

Colors play an important role in today's popular design. Panel systems are a perfect choice, offering the flexibility to simply detach existing panels and exchange them for an entirely new look.

Silent Gliss panel glide systems are distinguished worldwide for their quality and reliability, backed by more than fifty years of innovation and excellence in the window treatment industry.

The Home Collection fabrics are presented in six distinctive lines. From "Aspen", offering luxurious patterns and textures to the technical "West Palm" selections for functional sun screening. "Park Avenue" presents a soft design appeal while "Bel Air" provides dazzling patterns. For privacy and blackout requirements, "Hamptons" is the perfect assortment.

In addition to many fabrics offered in The Home Collection, you may choose to decorate with a coordinating fabric of your own. Panel glide systems are unique in their ability to allow this possibility.

Panels as room dividers, combining your own fabric offers limitless possibilities.

The Home Collection features both room darkening and sun screening fabrics to meet your privacy and sun protection requirements

Panel glide treatments from the Home Collection by Silent Gliss offer a wide range of possibilities for your interior decorating concepts. Free your creativity and find new and exciting ways to incorporate this unique window decorating solution.

Because the panels are attached to the hardware with Velcro[®], they can be easily removed for cleaning. This also allows exchanging of fabric panels to meet the demands of the season or to suit your changing color schemes. Change the entire mood of a room simply and in only seconds.

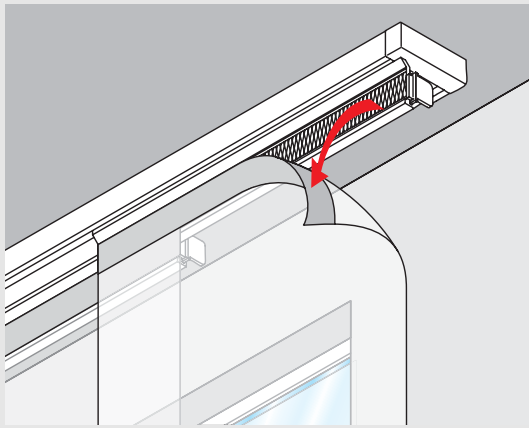

Using hand-operated systems, you can choose to have the panels free-floating or connected, having them pick up one another as they traverse. When connected, pulling the lead panel will cause the remaining panels to follow in sequence.

There are no limits to the way you may use panel systems and practically any type of customer supplied material may be used

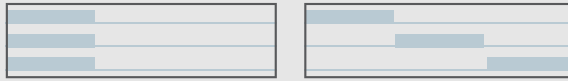

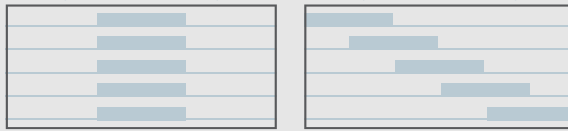

The Home Collection

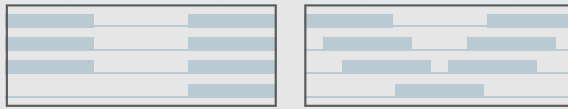

Side Stack left or right

Center stack

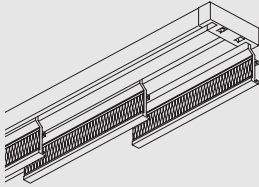

Pair stack

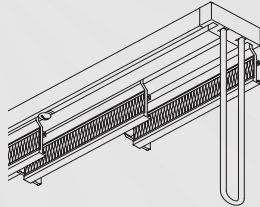

Panels detach easily from Velcro® carriers along the top sliding channel and bottom weight bars are simply removed from sewn-in pockets for panel cleaning.
