

The Herne Collection

ROLLER SHADES

Aspen # 5006

Over the last few years, roller shades have become enormously popular and the product of choice in window treatment design. Simple and uncluttered, roller shades look great in a stand-alone applications or in combination with a complementary window treatment.

For privacy, sun control or room darkening our Home Collection roller shades provide clean and timeless appeal.

The Home Collection by Silent Gliss offers a contemporary and delightful range of carefully selected, roller shade fabrics for any room in your home. Inspired by a palette of neutral colors and textures we hope this collection will meet your needs, regardless of your decor style. From natural, earthy looks to bright white translucent selections, the Home Collection by Silent Gliss was created to fulfill your interior decoration dreams.

For a truly unique touch, ask your Home Collection dealer if your own fabric selection may be used for personalized custom shades.

Aspen # 5000

The Home Collection

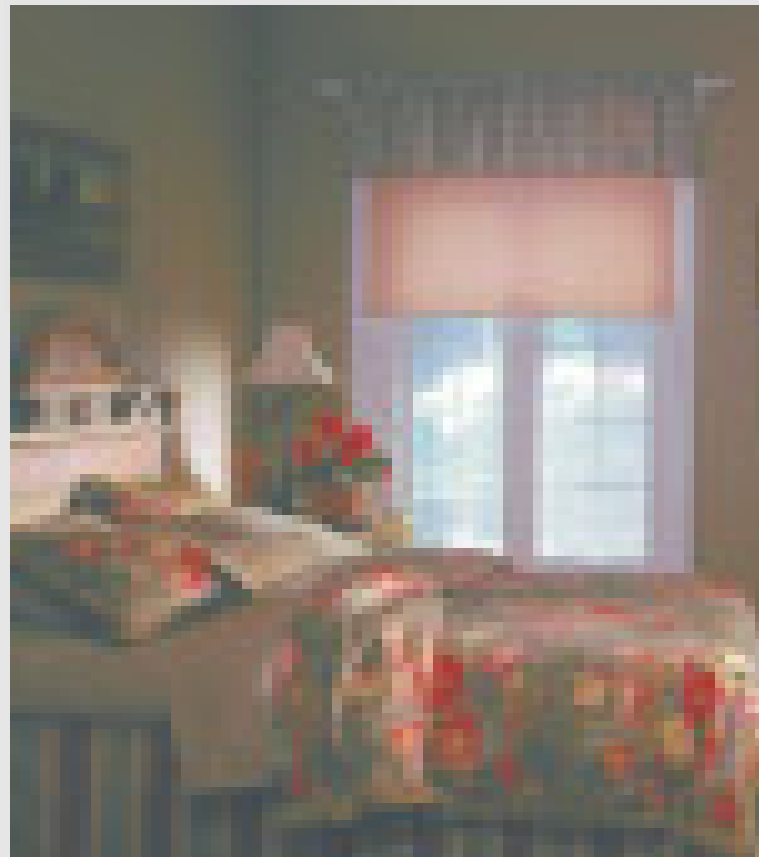

West Palm # 4507

Silent Gliss' exclusive, roller shade hardware mechanisms are world renowned for their high quality and dependability. Spring assisted hand operation, bead chain operated or motorized versions are available with optional design cases and decorative hand pulls.

The Home Collection fabrics are presented in six distinctive lines. From "Aspen", offering luxurious patterns and textures to the technical "West Palm" selections for functional sun screening. "Park Avenue" presents a soft design appeal while "Bel Air" provides dazzling patterns. For privacy and blackout requirements, "Hamptons" is the perfect assortment.

In addition to the many fabrics offered in The Home Collection, you may choose to decorate with a coordinating fabric of your own.

Hamptons # 9088

Bel Air # 1004

Embellish your Home Collection roller shades with ornamental pull handles and sleek designer bottom bars. These attractive accessories are available in silver, matt black, metallic gold and gunmetal finishes.

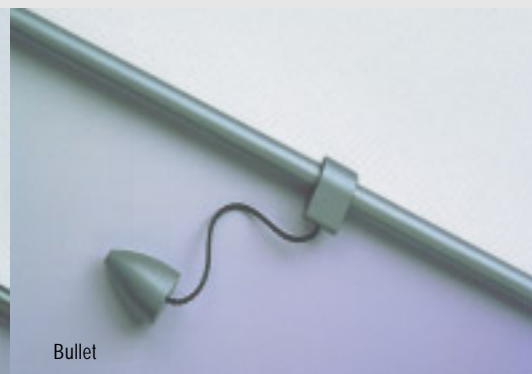

Decorative pull handles are normally only required on hand operated shade systems, however, if you would like to include them as a design detail they can be added to chain operated and motorized systems.

The standard bottom bar supplied with roller shades from The Home Collection by Silent Gliss is mounted to the shade externally. Its round shape makes it aesthetically pleasing and it is finished in white to ensure that it coordinates well with your Home Collection fabric selection.

If you prefer that the bottom weight bar is not part of the finishing touch of your shade, optional sewn-in weight bar pockets may be selected at no additional charge.

The Home Collection by Silent Gliss offers an exciting selection of uniquely designed shade pulls.

"Anchor", "Bullet" or "Pool" ornamental pull handles are available in four high quality finishes and are supplied with matching, attractively slim bottom weight bars.

Generally roller shades are supplied with the fabric rolling off the back of the shade to keep the fabric close to the glass, thereby decreasing light gaps. When using fabrics where the backing is a different color, such as Hamptons, you may select reverse roll to avoid seeing the white backside along the top of the roller.

To add a contemporary touch to any of the roller shades from the Home Collection by Silent Gliss, consider our optional Design Case. Design Cases may be wall or ceiling mounted and are available in either a clear anodized silver finish or powder-coated white.

Bottom up shades in white Design Case with silver weight bars and "pool" handles. Park Avenue # 3021
