Product Information

- #2500 is a unique, multi-channel, flat panel moving system for window treatment, room division, wall decoration or display applications
- Appropriate for both residential and contract requirements
- Suitable for use with blackout, sunscreen, soft decorative and technical fabrics
- Hand draw, with or without batons, cord draw and motorized operating versions are available
- Fabric panels are easily removed for cleaning or for changing room decor
- One way draw, split draw or random stacking arrangements are possible
- Delrin panel carriers ensure smooth, silent panel movement
- Simple wall mount or ceiling mount installation options
- Profiles available in standard clear anodized aluminum finish or custom painted white
- Widths up to 40 feet for split draw applications
- 5 Year Warranty

Cannot be bent
